

5

Reasons Your Mine Should Invest in On-Site Renewable Energy in 2018

1

THE PRICE IS RIGHT

- Renewables like wind or solar are often cheaper than diesel generators or even the local grid.

2

RELIABLE FINANCING SOLUTIONS EXIST

- Innovative financing options now take into account unique life-of-mine challenges.

3

THE TECHNOLOGY IS READY

- Turnkey clean energy solutions to meet your needs are available on the market today.

4

YOUR EMPLOYEES WANT IT

- Even the most skeptical staff members grow to love renewables once they see how it makes their jobs easier.

5

DIVERSIFY YOUR BUSINESS

- Renewables hedge against rising energy costs, and ancillary technologies like battery storage can lock in benefits by shifting costs away from peak hours.
