

Request for Proposals and Site Visit Announcement

Project Name

Puerto Rico Resilient Schools Microgrid Project, Phase I (Comerio, Aguas Buenas, and Corozal)

Summary

Rocky Mountain Institute (RMI) is partnering with Save the Children to develop solar-plus-storage microgrid projects at up to 12 public schools in communities severely impacted by Hurricane Maria. This document announces that RMI will release a Request for Proposals (RFP) on **Friday, November 9, 2018** aiming to provide resilient, renewable energy systems at **three** schools to support their continued operation following future storms and extended power outages. RMI will conduct mandatory site visits on **Tuesday, November 13, 2018**. The schools in question are located in the municipalities of Comerio, Aguas Buenas, and Corozal, and this project will affect over 990 elementary and middle school students.

*Your presence at the site visit is mandatory for your participation in this competitive RFP process. Please confirm your participation in the Site Visit by **Thursday November 8th, 2018**. RMI will respond to your confirmation with the details of the site visit.*
